Office Action Summary

Serial Number: 08/990195

Art Unit: 3727

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8,20 and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Moskowitz (5,638,638) and Worrell. Moskowitz shows a plant pot with plurality of legs filled with soil for the same function as claimed. Worrell shows a pot with plurality of draining holes. It would have been obvious to provide the pot of Moskowitz with plurality of drain holes to enhance the ventilation as shown by Worrell. Moreover, it would also have been obvious to provide the pot of Worrell with a plurality of soil enhancing supports as shown by Moskowitz.

Claims 8, 20 and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gautrot ( French 2310695) and Worrell. It would have been obvious to provide the pot ow Gautrot with drain holes as shown by Worrell or to provide the pot of Worrell with soil enhancing legs as shown by Gautrot in order to enhance the soil handling process.

Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 21 constitute new matter. “ to allow air flow .....thoroughly” is not supported by the original specification.
